My Portfolio: <https://amsyar-portfolio-website.vercel.app/>

My LinkedIn: <https://www.linkedin.com/in/muhammad-amir-amsyar/>

I am Information Systems Management student with hands-on experience in IT support, system development, and database management. Skilled in troubleshooting technical issues, developing web-based solutions, and supporting end users in operational environments. Seeking an internship opportunity to apply technical expertise and contribute to a dynamic IT team.

EDUCATION

Bachelor of Information Science (Information System Management) (Hons)

Universiti Teknologi MARA, Cawangan Negeri Selangor Kampus Puncak Perdana

Current CGPA: 3.63 (Dean's List)

Diploma In Information Management

Expected Graduation: March 2027

Universiti Teknologi MARA, Cawangan Negeri Sembilan Kampus Rembau

CGPA: 3.52 (Dean's List)

WORK EXPERIENCE

IT & Technical Assistant (Industrial Training)

Kementerian Pendidikan Malaysia (KPM)

22 July - 13 September 2024

- Provided comprehensive Tier 1 technical support and troubleshooting, resolving an average of 10-15 daily hardware and software requests to minimize staff downtime.
- Designed and deployed a centralized departmental portal using Google Sites to streamline information access for a department of 10+ staff members.
- Managed the deployment, installation, and maintenance of 20+ computer workstations and departmental printers.
- Configured audio/visual systems, projectors, and overall technical infrastructure to support 3-5 major departmental events and programs.

PROJECTS

- **Flight Booking System (Web):** Developed a comprehensive, web-based flight booking platform with a responsive interface using PHP 8.1, CakePHP 5.2, Bootstrap 5, Chart.js, and MySQL.
- **Parcel Management System:** Built a full-stack web system designed to efficiently track, organize, and manage parcel deliveries utilizing Node.js, Express.js, React.js, TailwindCSS, and MongoDB Atlas.
- **Local Tourism Website:** Created a platform to suggest and promote exciting local tourism locations, featuring Templer Park, using WordPress.
- **Navigation Campus Application:** Designed the UI/UX for "JustGo," a campus navigation mobile application prototype, using Figma.

EXPERTISE

- **Programming & Development:** HTML, CSS, JavaScript, C++, PHP (CakePHP)
- **Web & Design Tools:** WordPress (Jetpack, custom themes), Figma (UI/UX Design)
- **Database Management:** MySQL, MongoDB (NoSQL), DBMS concepts
- **Data & Analytics:** Tableau & Power BI (Data Visualization)
- **IT Support & Systems:** Hardware/Software Troubleshooting, System Maintenance, Computer Operations

LANGUAGES

Malay - Fluent
English - Proficient
